### PROFILE

Enthusiastic and detail-oriented React.js developer with a solid grasp of JavaScript, HTML, and CSS. Experienced in building responsive, interactive web interfaces through hands-on projects. Passionate about front-end development and eager to contribute to real-world applications while continuously learning and growing in a collaborative team environment.

### PERSONAL PROJECT/S

#### BookItNow - A Movie Ticket Booking Website april 2025- present

<https://book-it-now-website.vercel.app/>

Developed a dynamic and scalable movie ticket booking platform using Next.js, TypeScript, Tailwind CSS, Zustand, and Supabase.

- Implemented ticket search by username, interactive movie listings, and real-time seat selection.
- Developed a secure admin dashboard for managing users, rooms, and seats (add/edit/delete).

#### My Portfolio

march 2025- march2025

<https://deblinaroy.vercel.app/>

Built a responsive personal portfolio using the Next.js, TypeScript with clean UI using Tailwind CSS and deployed on Vercel.

- Integrated Sanity.io as a headless CMS to manage projects dynamically.
- Implemented on-page SEO best practices for improved visibility.

#### tuneify- a music app

dec 2024- jan2025

<https://tuneify-app.vercel.app/>

Developed a Spotify Clone with React.js, JavaScript, and Tailwind CSS that mimics the core functionalities of Spotify.

- Implemented music player controls (play, pause, skip, volume control)
- Designed a responsive UI with dark mode support.

#### OTP-based authenticate website

jan 2025 - feb 2025

<https://final-project-gules-psi.vercel.app/>

Developed a fully responsive otp-based authentication and product management system website using Next.js, Typescript, and MUI.

- Developed a product dashboard with full CRUD and password update features.
- Managed global state with Zustand and handled APIs efficiently using TanStack Query.
